Dear Friend,

The Seneca County Historical Society originated in 1915, with the mission to acquire and preserve artifacts that portray the rich history of our region, and the early pioneers who settled Seneca County. These early collections eventually became the origin of "The Seneca County Museum", and now our county museum needs your help.

The annual cost to keep the museum open is nearly \$20,000. That doesn't pay for any salaries, as the museum is operated and maintained solely by volunteers of the *Seneca County Historical Society* and *Seneca County Museum* docents. Financial contributions from the community will be necessary to help keep the museum doors open!

Please consider helping us, *The Seneca County Historical Society*, to support the Seneca County Museum. You can do this by becoming a "Friend of the Museum", a subsidiary of *The Seneca County Historical Society*.

Only with the generous financial support from individual sponsors, businesses or members will we be able to continue to share and teach the history of Seneca County to the public and to our school students. Please help us to preserve the proud history of our families and businesses that have helped shape and form our county. We would appreciate any monetary support you may be able to give. Please help us keep our history alive!

Thank you,

Tonia Hoffert

President, Seneca County Historical Society

Vice-President: Brian Courtney

Trustees: Brian Courtney, Jan Dundore, Ann Harry, William Hoffert, Mark Steinmetz

I wish to become a "Friend of the Museum"

_____ **Historical Society Benefactor (\$250 or more)**
